By: _____

RULES TO BE STRICTLY ADHERED TO

This permit allows the holder to deposit certain products that do not comply with the normal refuse accepted as waste at the City Convenience Center. These products are those that due to size and length would not normally be accepted. The City will accept building lumber, doors, windows, cabinets, bath tubs, toilet bowls, sinks, asphalt shingles, plywood, fencing material, household furniture, appliances, rubbish, trees, tree limbs and other related items that are too large, heavy or bulky to be handled with normal collection equipment.

This permit does not allow what is normally considered as garbage. No hazardous waste such as car batteries, tires, sheet rock, asbestos shingles, etc. will be accepted under this permit.

Appliances must not contain Freon or other hazardous waste.

All persons discharging refuse covered in this permit shall be charged a fee of twenty on dollars and fifty cents (\$21.50) per cubic yard or an appropriate fee for a proportional part thereof with a minimum of eight dollars (\$8.00) for the use of such facilities. Permit holder will be responsible for all offloading of loads.

I have read the above rules and regulation for this permit and agree to the terms. I did not dispose of any asbestos material nor any commercial waste materials nor and hazardous waste.
